

Web Isolation Planning Implementation and Administration R2

Duration: 1 Day Course Code: S000195

Overview:

The Symantec Web Isolation Planning, Implementation, and Administration R2 course provides a detailed introduction to Symantec's two cloud-based isolation services: High Risk Isolation (HRI) and the Web Isolation dedicated tenant.

The course includes implementation of the key protection scenarios with both Web Security Service and the ProxySG, as well as a description of the functions available in the Web Isolation management console.

Updated August 2026

Target Audience:

IT and security professionals responsible for the deployment, administration, and management of Symantec Web Isolation solutions.

Objectives:

- **After this course participants should be able to:**
 - Describe the major Web Isolation functions and capabilities
 - Write policies to selectively isolate risky and uncategorized websites, allow privileged users greater access, and defend against phishing and ransomware attacks
 - View reports and monitor solution performance
-

Prerequisites:

- Basic understanding of networking concepts
- Basic understanding of network security concepts
- Basic understanding of the use of proxy servers

Testing and Certification

None

Follow-on-Courses:

The following courses are recommended for further learning and development:

S000208 – Web Protection - Cloud SWG Planning, Implementation, and Administration

S000304 – Symantec Edge SWG Administration

Content:

Module 1: Introduction to Symantec Web Isolation

- The need for a web isolation solution
- Symantec Web isolation—Protection without detection
- High Risk Isolation web traffic protection
- Web Isolation dedicated tenant web traffic protection

Module 2: Implementing Web Isolation

- Implementing Isolation with Web Security Service
- Implementing Isolation with the ProxySG

Module 3: Administering the Web Isolation dedicated tenant

- Web isolation management console overview
- Removing active content from webpages
- Isolating links embedded in email to defend against phishing attacks
- Enabling safe file download protections
- Working with applications remotely

Module 4: Viewing reports and monitoring performance

- Viewing reports
- Monitoring performance

Module 5: Integrating Web Isolation with DLP, CloudSOC Mirror Gateway, and Email Security.cloud

- Integrating Web Isolation with DLP
- Integrating Web Isolation with CloudSOC Mirror Gateway
- Integrating Web Isolation with Symantec Email Security.cloud
- Integrating Web Isolation with third-party providers

Module 6: Course review

- Symantec Web Isolation course review

Additional Information:

Hands-On

This course includes pre-recorded demonstrations that illustrate the concepts discussed in the lessons.
