

SAFe® Advanced Scrum Master (ASM) – Including Exam

Duration: 2 Days **Course Code: SAFE-ASM** **Delivery Method: Virtual Classroom**

Overview:

This two-day course prepares current Scrum Masters for their leadership role in facilitating Agile team, program, and enterprise success in a Scaled Agile Framework (SAFe®) implementation.

The course covers facilitation of cross-team interactions in support of program execution and relentless improvement. It enhances the Scrum paradigm with an introduction to scalable engineering and DevOps practices, the application of Kanban to facilitate the flow of value, and supporting interactions with architects, product management, and other critical stakeholders in the larger program and enterprise contexts. The course also offers actionable tools for building high-performing teams and explores practical ways of addressing Agile and Scrum anti-patterns in the enterprise.

Updated 4/2026

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

- Program or Project Manager
- Scrum Master
- Release Train Engineer
- Business Analyst
- Agile Coach
