

ServiceNow Platform Analytics Advanced

Duration: 2 Days **Course Code: SNPAA** **Delivery Method: Virtual Classroom**

Overview:

This two-day training builds upon the knowledge obtained in the Platform Analytics Fundamentals course. Here you apply advanced reporting, platform analytics, and application administration skills to take your historic trends and measurements to the next level.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Objectives:

- Learn how to apply advanced reporting, platform analytics, and application administration skills.
 - Take your historic trends and measurements to the next level.
-

Prerequisites:

- Attendees should have completed the Platform Analytics Fundamentals course (or equivalent) and have some experience with ServiceNow; advanced experience is not necessary.
 - A high-level overview of the Platform Analytics architecture, components, data flow, stakeholders, and deployment process is required to get the most out of the Platform Analytics Advanced class. Users should complete the Platform Analytics Fundamentals Review a self-paced, on-demand eLearning prior to attending the advanced class.
 - SNF - ServiceNow Fundamentals
 - SNPAF - ServiceNow Platform Analytics Fundamentals
-

Content:

The following topics are discussed using a mix of labs and lecture:
