Maximo Application Suite - Manage: Users and Security

Duration: 1 Day **Course Code: MAX4327G** **Delivery Method: Virtual Classroom**

Overview:

Learn how to configure and secure Maximo Manage environments by managing user access, labor resources, craft records, calendars, and conditional security settings.

This course provides students with an understanding of how to create new users in Maximo Manage and manage labor, crafts, and calendar records through specialized applications. We will also use conditional expressions and control properties to implement conditional security. There is also hands-on lab exercises using a Red Hat OpenShift MAS Manage environment.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Consultants, System Administrators, Support, Sales, Users

Objectives:

- **After completing this course, you should be able to:**
- Define these Maximo components: User, People, Security Groups, and Labor
- Describe Manage Labor, Crafts, and Calendar records
- Describe the use of Conditional Expressions
