## System Operator Workshop for IBM i

**Duration: 4 Days**    **Course Code: AS24G**    **Delivery Method: Virtual Learning**

---

### Overview:

New system operators can develop basic-to-intermediate skills needed for day to day operations of the iSeries system. You'll learn the Character Driven Interface (Green Screens) and iSeries Navigator (Graphical User Interface) where applicable.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

---

### Target Audience:

Those who have responsibility for daily system operations. It is not intended for technical audiences who are seeking an in-depth look at how the iSeries 400 system works. This audience should instead attend the Concepts and facilities workshop OL49

---

### Objectives:

- On completion you will be able to: Send, display, and respond to messages Use the on-line help and reference material Monitor and control job queues, active jobs and output queues Create and change User Profiles Use authorization lists and group profiles Start and Stop the Operating System Manage system devices, user display stations and printers Save and restore objects and libraries Monitor job and history logs Diagnose System problems Order, receive and install PTFs.
- 

### Prerequisites:

None

---
