## BRMS for IBM i

**Duration: 5 Days**    **Course Code: AS28G**    **Delivery Method: Virtual Learning**

---

### Overview:

Backup and recovery knowing how to do it is not optional! Learn once and never forget how to use BRMS to do regular and ad-hoc backups, recovery, and offsite tape backups.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

---

### Target Audience:

iSeries Operations staff who are responsible for the configuration and management of iSeries Backup and Recovery, especially those implementing BRMS/400.

---

### Objectives:

- On completion, you will be able to :
  - Setup BRMS to do both regular and ad-hoc backups.
  - Recover the entire system (or parts thereof).
  - Use BRMS Media Management to move tape volumes to offsite locations.
  - Run Daily Maintenance routines and to manage an IBM Automated Tape Library.
- 

### Prerequisites:

Students must be familiar with standard OS/400 Save/Restore facilities and have attended the courses AS24 and OL51 or have equivalent education and experience.

---
