

## Kubernetes Application Essentials

**Duration: 2 Days**    **Course Code: CN120**    **Delivery Method: Company Event**

### Overview:

Whether your focus is on developing containerized applications or managing a container-centric infrastructure, CN120 introduces Kubernetes container orchestration for everyone involved in the software development life cycle. Through a real-world approach for design and deployment considerations, students can expect to learn about the foundational Kubernetes components required for application workloads. Specifically, students will examine Kubernetes architecture, explore how Kubernetes objects work together for running an application, and learn how Kubernetes makes use of compute, networking, and storage resources.

### Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

### Target Audience:

General technical audiences & IT professionals

### Prerequisites:

#### Attendees should meet the following prerequisites:

- CN100 course or equivalent experience
- Familiarity with the Bash shell
- Filesystem navigation and manipulation
- Command line text editors like vim or nano
- Common tooling like curl, wget and ping
- Familiarity with YAML and JSON notation
- CN100 - Docker Containerization Essentials

### Follow-on-Courses:

- CN251 - Cloud Native Operations Bootcamp
- CN252 - Cloud Native Development Bootcamp
- CN220 - Kubernetes Operations
- CN230 - Kubernetes Native Application Development

### Content:

- Make effective use of pod architecture
- Deploy workloads as Kubernetes controllers
- Provision configuration at runtime to Kubernetes workloads
- Network pods together across a cluster using native services
- Provision highly available storage to Kubernetes workloads
- Package an application as a Helm chart

### Additional Information:

#### Lab Requirements:

Laptop with WiFi connectivity Attendees should have the latest Chrome or Firefox installed, and a free account at strigo.io.
