

## DASA DevOps Enable and Scale – Including Exam

Duration: 2 Days    Course Code: DASADEV-PES    Version: 1.0

---

### Overview:

Scale DevOps practices across teams and organizations. The DASA DevOps Enable and Scale Certification equips you with the skills, mindset, and behaviors to foster high-performing teams, enable end-to-end collaboration, and remove organizational barriers—allowing you to accelerate value delivery at scale.

---

### Target Audience:

Individuals involved in IT development, IT operations, or IT service management  
Individuals whose roles are affected by DevOps and continuous delivery, such as:

- DevOps engineers
  - Product owners
  - Integration specialists
  - Operations managers
  - Incident and change managers
  - Network Leads
  - Business managers
  - Automation architects
  - Enterprise architects
- 

### Objectives:

- After completing this program, you will be able to:
  - Explain the importance of **DevOps culture** and the aspects that can influence it.
  - Explain why courage, team building, leadership, and continuous improvement are required in a DevOps environment.
  - Explain why courage is **essential to enable** trust, honesty, and experimentation.
  - Identify and evaluate **different types of behavior** in a DevOps environment.
  - Recognize the signals indicating impediments and/or team dysfunctions.
  - Describe how to form good DevOps teams.
  - List the effects of happiness and motivation on **team performance**.
  - Assess the maturity of DevOps teams.
  - Identify how leaders **encourage feedback and transparency**.
  - Discuss the factors that leaders can influence to build trust.
  - Explain how and why leaders promote a “**Safe to fail**” **environment**.
  - Analyze value streams to improve throughput and flow.
  - Facilitate the tools for **continuous improvement**: structured problem-solving workshops, Story Mapping sessions, and retrospectives.
-
