

Data Protection Advisor Custom Reporting

Duration: 3 Days **Course Code: DPACR** **Delivery Method: Virtual Learning**

Overview:

This course teaches participants how to build custom reports with Data Protection Advisor, using DPA data sources and external data sources, operators. Smart Groups and advanced analysis and rules are also covered. Pre-requisite Data Protection Advisor implementation and management exposure is required as this course takes a deeper dive into the custom reporting subject. Course content is based on EMC Data Protection Advisor version 6.2.1.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
