

FCSS Enterprise Firewall

Duration: 3 Days **Course Code: ENFCSSFW** **Delivery Method: Company Event**

Overview:

In this course, you will learn how to implement and centrally manage an enterprise security infrastructure composed of multiple FortiGate devices.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Objectives:

- **After completing this course, you should be able to:**
- · Integrate FortiManager, FortiAnalyzer, and multiple FortiGate devices using the Fortinet Security Fabric
- · Centralize the management and monitoring of network security events
- · Optimize FortiGate resources
- · Harden the enterprise services
- · Implement a high availability solution on FortiGate
- · Simultaneously deploy IPsec tunnels to multiple sites using the FortiManager VPN console
- · Configure ADVPN to enable on-demand VPN tunnels between sites
- · Combine OSPF and BGP to route the enterprise traffic

Testing and Certification

Content:

Agenda:

- | | | |
|--|----------------------------|-------------------------------------|
