

z/OS JES2 Operator Training

Duration: 3 Days **Course Code: ES28G** **Delivery Method: Company Event**

Overview:

This course is designed to give the z/OS Operator personnel as well as entry systems programmers an overview about JES2. The students should be able to use JES2 commands at the z/OS Console and use SDSF.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This intermediate course is for z/OS Operators (console and periphery), help desk, and support personnel.

Objectives:

- Understand the z/OS environment and JES2 role
- Start JES2 with focus on options and shutdown
- Control JES2 with commands and SDSF
- Control JES2 job flow, selection, and processing
- Control output processing and printers
- Understand z/OS influence on JES2 processing

Prerequisites:

Students should have completed:

- z/OS Basic System Skill (ES10GB)
- z/OS System Operations (ES27)

Content:

Day 1
