

CompTIA Project+

Duration: 5 Days Course Code: G011 Version: PK0-005 Delivery Method: Company Event

Overview:

Master practical project management skills and take your first step toward a recognized certification and career growth.

CompTIA Project+ is a five-day, instructor-led course designed to provide delegates with the essential knowledge and skills required to manage projects effectively or to be a valued, high-performing member of a project team. This entry-level project management certification validates core capabilities in managing projects, timelines, budgets, and team communication. It demonstrates professionals' ability to plan, execute, and deliver projects on time and within scope, while ensuring strong communication and efficient resource management. With the global economy projected to require 25 million new project management professionals by 2030, CompTIA Project+ is an ideal starting point for individuals pursuing roles such as project coordinator or project manager. The course delivers a solid foundation for building a successful career in this dynamic, high-demand field across a wide range of industries.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:
