

Cost Estimating Fundamentals

Duration: 1 Days **Course Code: GK2952** **Delivery Method: Company Event**

Overview:

Learn to accurately estimate project cost. If your project costs routinely go over budget, your credibility as a project manager is jeopardized. The key to avoiding budget overruns is having accurate cost estimates at the beginning of your project. This short course will help you understand cost estimating and give you some practical cost-estimating techniques and processes. You'll experiment with different estimating techniques so you can identify which method works best for you and when to use each.

This virtual short course, specifically designed to give you a quick convenient way to renew and refresh your project management skills, maintain your Project Management Professional (PMP)® certification, and earn PDUs on your own time, at your own pace. Virtual short courses do not include materials or headsets.

PMP is a registered mark of the Project Management Institute, Inc.
