

Advanced AWS Well Architected Best Practices

Duration: 1 Day **Course Code: GK821547** **Delivery Method: Virtual Learning**

Overview:

This hands-on, advanced technical-level, instructor-led course provides a deep dive into Amazon Web Services (AWS) best practices to help you perform effective and efficient AWS Well-Architected Framework reviews. The course covers the phases of a review, including how to prepare, run, and get guidance after a review has been performed. This course is designed for AWS customers and AWS Partners. Attendees should have familiarity with the AWS concepts, terminology, services, and tools that are covered in the intermediate 200-level precursor to this course. This course provides an AWS Well-Architected Framework review simulation and instructor led group exercises and discussions about prioritizing and resolving risks.

The content focuses on how to prepare proposals on high and medium risk issues using the AWS Well-Architected Tool.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is intended for:

- Solutions architects
 - Cloud practitioners
 - Data engineers
 - Data scientists
 - Developers
-

Objectives:

- | | |
|---|--|
| ■ In this course, you will learn to: | ■ Prioritize improvements to the AWS Well-Architected workflow |
| ■ Recognize workload definition and key concepts | ■ Locate and use the AWS Well-Architected Framework white paper, labs, and prebuilt solutions in the AWS solutions library |
| ■ Identify the AWS Well-Architected Framework review phases, process, best practices, and anti-patterns | ■ Locate and use AWS Well-Architected independent software vendors (ISVs) |
| ■ Identify high and medium risks | ■ Locate and use the AWS Well-Architected Partner Program (WAPP) |
-

Prerequisites:

We recommend that attendees of this course have:

- Completed AWS Well-Architected Best Practices Intermediate – L200
-

Content:

Module 0: Course Introduction

Module 1: AWS Well-Architected Framework Reviews

- AWS Well-Architected Framework workload
- AWS Well-Architected Framework review phases
- AWS Well-Architected review approach, lessons learned, and use cases
- AWS Well-Architected review best practices
- AWS Well-Architected review anti-patterns
- Knowledge check

Module 2: Customer Scenario Group Sessions

- Customer Story
- Demonstration of the workflow
- Hands-on group exercise
- Demonstration: Running a review in the Operational Excellence pillar
- Role-play exercise: Running a review in the Security pillar
- Role-play exercise: Running a review in the Reliability pillar
- Role-play exercise: Running a review in the Performance Efficiency pillar
- Role-play exercise: Running a review in the Cost Optimization pillar

Module 3: Risk Solutions and Priorities

- AWS Well-Architected Framework review engagement workflow
- High risk and medium risk issues
- Defining risks
- Resolving high-risk issues (HRIs) and medium-risk issues (MRIs)
- Group discussion: Identifying and resolving significant risks for:
 - Operational Excellence
 - Security
 - Reliability
 - Performance Efficiency
 - Cost Optimization
 - Prioritizing improvements
 - AWS Well-Architected improvement workflow

Module 4: Resources

- Resource pages
- AWS Well-Architected ISVs
- AWS Well-Architected Partner Program (WAPP)

Module 5: Course Summary

- Debrief
- What's next?
- Course feedback

Additional Information:

Activities

This course includes presentations, demonstrations, group exercise sessions, and knowledge checks.
