Microsoft Azure Fundamentals

Duration: 1 Day   Course Code: GKMSAZ900   Delivery Method: Virtual Learning

Overview:

This course will provide foundational level knowledge of cloud services and how those services are provided with Microsoft Azure. The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses.

The course will cover general cloud computing concepts as well as general cloud computing models and services such as Public, Private and Hybrid cloud and Infrastructure-as-a-Service (IaaS), Platform-as-a-Service(PaaS) and Software-as-a-Service (SaaS).

It will also cover some core Azure services and solutions, as well as key Azure pillar services concerning security, privacy, compliance and trust. It will finally cover pricing and support services available with Azure.

Exam voucher is not included on any complimentary sessions.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

There are no pre-requisites for taking this course. It is targeted for anyone that wants to learn more about Microsoft Azure.

Objectives:

■ **After attending this course you should be able to:**

■ Understand general cloud computing concepts

■ Understand core services available with Microsoft Azure

■ Understand security, privacy, compliance and trust with Microsoft Azure

■ Understand pricing and support models available with Microsoft

Prerequisites:

Attendees should meet the following prerequisites:

■ There are no pre-requisites for taking this course.
■ Technical IT experience is not required however some general IT knowledge or experience would be beneficial.

Content:

Module 1: Cloud Concepts

In this module you will learn basic cloud concepts.

Lessons for module 1

- Learning Objectives
- Why Cloud Services?
- Infrastructure-as-a-Service (IaaS), Platform-as-a-Service (PaaS) and Software-as-a-Service (SaaS)
- Public, Private, and Hybrid cloud models

Module 2: Core Azure Services

In this module you will learn the basics core services available with Microsoft Azure.

Lessons for module 2

- Core Azure architectural components
- Core Azure Services and Products
- Azure Solutions
- Azure management tools

Module 3: Security, Privacy, Compliance and Trust

In this module, you learn about security, privacy, compliance, and trust with Microsoft Azure.

Lessons for module 3

- Securing network connectivity in Azure
- Core Azure Identity services
- Security tools and features
- Azure governance methodologies
- Monitoring and Reporting in Azure
- Privacy, Compliance and Data Protection standards in Azure

Module 4: Azure Pricing and Support

In this module, you will focus on pricing and support models available with Microsoft.

Lessons for module 4

- Azure subscriptions
- Planning and managing costs
- Support options available with Azure
- Service lifecycle in Azure
