

SAP HANA High Availability and Disaster Tolerance Administration

Duration: 3 Days **Course Code: HA201** **Version: SPS04** **Delivery Method: Company Event**

Overview:

This course covers all key capabilities of SAP HANA 2.0 SPS04 database system in the areas of High Availability and Disaster Tolerance. Through the lectures and exercises you will learn about scale-out and auto host- failover, SAP HANA storage and system replication with Active/Active. You will install and configure these setups in our lab environment. The course will also cover the topics on tenant creation, rename and delete tenants in an SAP HANA multitenant database container system. As a last topic, you will gain insight in some SAP HANA Python scripts provided by SAP.

The information provided in the HA201 course is valid for participants who have followed the HA200 in SAP HANA 1.0 and/or the SAP HANA 2.0.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

Database Administrator

Help Desk/CoE Support
System Administrator
Technology Consultant

Objectives:

- This course will prepare you to:
- Install and configure a high available multi host SAP HANA scale- out database system.
- Understand what happens to SAP HANA scale-out system during a failure of a slave or master node.
- Install and configure SAP HANA system replication with the classic setup and the new Active/Active setup.
- Perform tenant administration tasks like create, rename and delete of a tenant in a multitenant SAP HANA 2.0 database system.
- Understand the SAP HANA Python scripts provided by SAP.

Prerequisites:

-
- HA100
-
- Some experience with the Linux operating system
- Some experience in database administration
- HA100 - SAP HANA - 360° Introduction
- HA200 - SAP HANA Installing and administering

Follow-on-Courses:

- HA215 - SAP HANA 2.0 SPS05 - Using Monitoring and Performance Tools
- HA250 - Migration to SAP HANA using DMO

Content:
