

Managing HPE GreenLake for Block Storage MP

Duration: 3 Days Course Code: H40ZSS Delivery Method: Company Event

Overview:

The Managing HPE GreenLake for Block Storage MP course describes the HPE Alletra Storage MP hardware platform building blocks, theory of operation and HPE GreenLake for Block Storage features. Using hands-on labs (HOL), students learn how to perform common day-to-day management tasks, including how to create hosts, volumes, sets, and how to monitor the product. This course also provides knowledge of more advanced features, including local and remote replication, disaster recovery, as well as maintenance and data migration. You gain a practical understanding of HPE GreenLake for Block Storage MP capabilities using extensive lab exercises, performed on all applicable user interfaces
