HPE OneView Administration

Duration: 3 Days Course Code: H4C04S

Overview:

HPE OneView is an integrated converged management platform that automates tasks and streamlines processes, delivering the entire lifecycle management for HPE Composable Infrastructure. HPE OneView provides software-defined intelligence across the entire HPE family of infrastructure solutions—from providing embedded management in HPE Synergy to delivering attributes of composability in HPE BladeSystem c7000, HPE ProLiant DL/ML/DX, HPE Superdome Flex, HPE 3PAR StoreServ and HPE StoreVirtual VSA, HPE Nimble Storage, HPE Virtual Connect, and HPE Apollo (XL). This instructor-led course is essential training for system, network, and storage administrators using HPE OneView and for system architects implementing HPE OneView.

Target Audience:

System, network, and storage administrators,and consultants who manage and monitor anHPE environment and for system architectsanticipating the implementation of HPEOneView.

Objectives:

- This course equips students with the skills
- and knowledge to:
- • Use HPE OneView to manage and maintain
- firmware
- • Implement server and networking
- configurations
- • Monitor the data center
