

HPE Compute Solutions Rev 2141 0001174342

Duration: 5 Days Course Code: H61K8S

Overview:

This course teaches how to plan and design HPE compute solutions based on industry standard computing technologies and workloads. Hands-on lab activities guide you through exercises exploring HPE Synergy components, managing HPE OneView server profiles and HPE ProLiant servers, as well as working with HPE Superdome Flex and HPE Superdome Flex 280. You learn to recommend and position HPE compute products, solutions, and appropriate services for customer use cases and workloads. This course covers a wide range of HPE compute solutions including: •Full coverage of HPE Synergy platform including HPE OneView •Introduction to HPE Primera in the compute context (for example, boot from SAN) •Introduction of HPE Superdome Flex and HPE Superdome Flex 280 technologies •Automation with PowerShell scripting •Full integration of HPE OneView for VMware vCenter Server and HPE Storage Integration Pack for VMware vCenter •Basics of virtualization with HPE OneView integration

Target Audience:

The ideal candidate for this course is someone who needs to learn how to describe, position, recommend, and demonstrate HPE compute solutions to meet a customer's business and technology requirements. Typical candidates are sales and technical consultants, sales, systems and pre-sales engineers

Objectives:

- | | |
|--|--|
| ■ Upon completion of this course, you should be able to: | ■ • Describe HPE management solutions |
| ■ • Explain and position the HPE compute product | ■ • Describe vSAN setup for ROBO and vVols |
| ■ portfolio • Describe HPE Synergy components | ■ • Identify troubleshooting methods and tools |
| ■ • Work with server profile templates and server profiles | ■ • Work with a HPE Superdome Flex |
| ■ • Explain storage management using HPE OneView | |

Prerequisites:

HPE recommends the training required for
