The Hybrid ATP Bootcamp Building HPE Hybrid IT Solutions

Duration: 3 Days   Course Code: H61U5S

Overview:

The Hybrid ATP Bootcamp: Building HPE Hybrid IT Solutions 19.41 includes lectures and activities in the ratio of approximately 25/75 (lecture/activities). This course is designed to expose participants to the fundamental principles required to architect hybrid IT solutions. The course focuses on HPE networking, server, and storage solutions for SMB customers. Through the use of customer scenarios and extensive hands-on labs, participants learn how to set up and configure a small data center to meet specific customer requirements.

Target Audience:

Typical candidates for this course are IT professionals and solution architects who design and plan solutions based on HPE products and solutions

Objectives:

- After you successfully complete this bootcamp,

- you should be able to:

- • Describe, differentiate, and apply

- industry-standard, foundational SMB

- architectures, and technologies

- • Differentiate the functions, features, and

- capabilities of HPE product and

- solution-specific components and offerings

- • Recommend and position HPE SMB

- products, solutions, and appropriate services

- for customer use cases (positioning/use

- cases)

- • Evaluate the customer environment, and

- plan and design solutions using the HPE

- SMB portfolio to meet customer business

- requirements

- • Validate, install, configure, and upgrade HPE

- SMB solutions and their components

- • Troubleshoot and diagnose issues with HPE

- SMB solution components

- • Manage, monitor, administer, and operate

- HPE SMB solution components
