

## The Hybrid ATP Bootcamp Building HPE Hybrid IT Solutions

**Duration: 3 Days    Course Code: H61U5S    Delivery Method: Virtual Learning**

### Overview:

The Hybrid ATP Bootcamp: Building HPE Hybrid IT Solutions 19.41 includes lectures and activities in the ratio of approximately 25/75 (lecture/activities). This course is designed to expose participants to the fundamental principles required to architect hybrid IT solutions. The course focuses on HPE networking, server, and storage solutions for SMB customers. Through the use of customer scenarios and extensive hands-on labs, participants learn how to set up and configure a small data center to meet specific customer requirements.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

### Target Audience:

Typical candidates for this course are IT professionals and solution architects who design and plan solutions based on HPE products and solutions

### Objectives:

- After you successfully complete this bootcamp,
- you should be able to:
  - • Describe, differentiate, and apply industry-standard, foundational SMB architectures, and technologies
  - • Differentiate the functions, features, and capabilities of HPE product and solution-specific components and offerings
  - • Recommend and position HPE SMB products, solutions, and appropriate services for customer use cases (positioning/use cases)
- cases)
  - • Evaluate the customer environment, and plan and design solutions using the HPE SMB portfolio to meet customer business requirements
  - • Validate, install, configure, and upgrade HPE SMB solutions and their components
  - • Troubleshoot and diagnose issues with HPE SMB solution components
  - • Manage, monitor, administer, and operate HPE SMB solution components
