

HPE Performance Cluster Management Foundations

Duration: 2 Days **Course Code: H8PE8S** **Delivery Method: Virtual Learning**

Overview:

The HPE Performance Cluster Manager Foundations course provides knowledge and practice in cluster operation areas such as navigating the HPCM graphical user interface (GUI), monitoring cluster components, operating system boot modes and root filesystem modes, cluster power management, running commands on multiple servers, connecting to server consoles, and backing up the cluster configuration.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Attend this class if you operate and monitor cluster managed with the HPE Performance Cluster Manager (HPCM)

Objectives:

- At the conclusion of this course, you should be able to:
 - • Describe cluster components
 - • Navigate HPCM GUI
 - • Use operating system boot modes and root file system modes
 - • Manage power with graphical and command line options
 - • Gather information from groups of servers
 - • Send instructions to groups of servers
 - • Compare differences between servers
 - • Connect server consoles with graphical and command line options
 - • Back up cluster and management switch configuration
 - • Backup the system admin node with your house solution

Prerequisites:

Linux Fundamentals (GL120) U8583S or equivalent Linux or VMware experience

Content:

[HPE Performance Cluster Management Foundations | H8PE8S](#)
