

Advanced HPE Compute Solutions Rev 21.11

Duration: 4.5 Days Course Code: HT2P3S Delivery Method: Virtual Learning

Overview:

This course teaches you to plan and design advanced HPE compute solutions based on industry-standard advanced computing technologies and workloads, as they relate to optimizing performance and availability. Hands-on labs and activities guide you through complex design exercises such as information gathering and analyzing customer business outcomes and technical requirements. You learn to recommend and position HPE compute products, solutions, tools, and appropriate services for customer use cases and workloads. Finally, you architect and design an HPE solution based on customer needs, and then demonstrate and present the solution

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Typical candidates for this course are those who need to learn how to describe, position, recommend, demonstrate, plan, and design advanced HPE compute solutions to meet a customer's business and technology requirements

Objectives:

- | | |
|---|--|
| ■ Upon completion of this course, you should be | ■ workloads |
| ■ able to: | ■ • Manage implementation and startup of |
| ■ • Describe industry-standard advanced | ■ advanced computing solutions to ensure |
| ■ computing technologies and workloads | ■ desired customer outcome |
| ■ • Describe and position the HPE advanced | ■ • Monitor, manage, operate, and update |
| ■ computing portfolio and the typical workloads | ■ advanced computing solutions |
| ■ for each platform | ■ • Optimize and troubleshoot advanced |
| ■ • Size, design, and configure advanced | ■ computing solutions |
| ■ computing solutions for a set of customer | ■ |

Prerequisites:

Prior to attending this course, students should complete one of the following:

- HPE ASE - Server Solutions Architect V4
- HPE ASE - Synergy Solutions Integrator V1
- HPE ASE - Hybrid IT Solutions V1

- HPE ASE - Composable Infrastructure

Integrator V1
