

Open System Services (OSS) Basic Commands and Utilities

Duration: 2 Days Course Code: U5516S

Overview:

Open System Services (OSS) is an open computing interface to the HPE NonStop Kernel operating system and is based on POSIX standards. This course is intended for OSS application developers who will be creating or porting applications to the OSS environment on a NonStop server. New OSS users are introduced to OSS basic commands, editors, and utilities in the NonStop Kernel OSS environment. This course is 60 percent lecture and 40 percent hands-on labs using HPE servers.

Target Audience:

• Application developers • System analysts • Support personnel
