Target Audience:

ITIL® 4 certification holders, at any level, who want a quick and easy way to understand the key enhancements in ITIL® (Version 5) Foundation.

Objectives:

- By the end of this course, learners will be able to:
- Describe the key differences between ITIL 4 and ITIL 5
- Explain the updated concepts, terminology, and structural changes introduced in ITIL 5
- Analyse how ITIL 5 enhances the value system and value chain
- Interpret updates to practices, governance, and continual improvement approaches
- Assess how ITIL 5 supports modern operating models including cloud-based and AI-enabled services
- Apply updated ITIL 5 concepts within real-world organisational contexts
- Prepare effectively for the ITIL 5 Foundation Bridge examination

Prerequisites:

You can attend this course if you have:

- Any ITIL® 4 certificate (excluding Cloud / Sustainability).

Testing and Certification

Recommended preparation for exam(s):

- ITIL® 5 Foundation Certificate in IT Service Management (Bridge Exam)

The examination is 30 minutes, closed book, multiple choice paper taken after completion of the course - exam vouchers are provided with this course. This is a shorter exam as it only focuses on the changes between Version 4-5. The voucher will have a validity of 12 months. You will need to schedule your exams within this time frame. Cost of the exam is included in the course fee
