

## SAP Master Data Governance on SAP S/4HANA

Duration: 5 Days    Course Code: MDG100    Delivery Method: Virtual Learning

---

### Overview:

MDG100, divided logically into functional and technical aspects, gives you the understanding and skills to use master data governance to ensure ongoing master data quality. It will also give the more advanced user the understanding and skills to not only perform basic configuration, but also to modify standard content to meet business requirements even to the extent of creating a solution for a custom master data domain.

### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

---
