

## **NetWorker Implementation and Management**

Duration: 5 Days Course Code: NWIM Delivery Method: Virtual Learning

#### Overview:

This course provides participants with the knowledge and basic skills necessary to install, configure, maintain and monitor NetWorker. The course contains lectures, hands-on labs and video demonstrations to provide experience with specific concepts.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

#### **Target Audience:**

This course is intended for system administrators, partners, and software support specialists who install, configure and support NetWorker in Windows and Linux environments.

## Objectives:

- Upon successful completion of this course, participants should be able to:
- Install NetWorker and NetWorker Management Console
- Use NetWorker resources and administrative interfaces
- Configure and perform backup and restore operations
- Manage NetWorker media and devices
- Manage NetWorker databases

- Perform cloning and staging
- Generate NetWorker reports
- Describe how to back up Windows hosts for disaster recovery
- Explain how to configure NetWorker in a cluster environment
- Backup and recover the NetWorker Management Console and NetWorker servers

# Prerequisites:

To understand the content and successfully complete this course, a student must have a suitable knowledgebase/skill set. The student must have an understanding of:

- Backup and recovery concepts and principles
- Windows or Linux system administration
- Network administration in a TCP/IP environment
- SAN and storage device concepts

Completion of the NetWorker Fundamentals eLearning course is a prerequisite.

#### Content:

Module: NetWorker Overview

 Lesson: NetWorker Concepts and Terminology

Lesson: NetWorker Process and Backup

Lesson: NetWorker Control Data

Module: NetWorker Planning and Installation

Lesson: Performing Pre-installation Planning

Lesson: NetWorker Licensing

Lesson: Installing NetWorker and NMC

Lesson: Controlling NetWorker Processes

Lab: NetWorker Installation

Demo: Deploy and Configure an NVE

Module: Media Tracking and Management

Lesson: NetWorker PoolsLab: NetWorker Pool

Module: Performing Backups

Lesson: Data Protection Policies

Lesson: Scheduling and Monitoring Backups

Lesson: Advanced Backup OptionsLesson: VMware Backup Options

Lab: Configuring Backups

Module: Configuring and Managing Devices

Lesson: Devices Overview

Lesson: Using Disk DevicesLesson: Using Tape Devices

Lesson: Configuring and Managing Library Resources

Lab: Configuring Devices

■ Demo: Configuring Library Devices

Module: NetWorker Database Management

Lesson: Viewing and Managing Tracking Data

Lesson: Manual Management of the NetWorker Databases

Lab: NetWorker Databases

Module: Performing NetWorker Recoveries

Lesson: NetWorker Recovery Overview

Lesson: Performing Recoveries by File Selection

Lesson: Performing Save Set Recoveries

Lesson: Performing Directed Recoveries

Lesson: Performing Filesystem Snapshot Recoveries

Lab: NetWorker Recoveries

Module: Performing Cloning and Staging

Lesson: Performing Cloning

Lesson: Performing Clone Controlled Replication

Lesson: Performing NetWorker Staging

Lab: Configuring Cloning and Staging

Module: NetWorker Security

Lesson: NetWorker Security Features
Overview

Lesson: NetWorker AuthenticationLesson: NetWorker User Groups

Lesson: NetWorker Logs

Lesson: Configuring NetWorker in a Firewall Environment

 Lab: NetWorker Authentication, User Groups and Logs

Module: Administering NetWorker

Lesson: Events and Reporting

Lesson: Managing NetWorker Parallelism

Lesson: Software Distribution

Lesson: Multi-tenancy

Lab: NetWorker Administration

Module: Recovering Windows Hosts and Cluster Environments

Lesson: Recovery for NetWorker Windows Client Hosts

Lesson: Backup and Recovery of Cluster Environments

Module: Recovering NetWorker and NMC Servers

Lesson: Protecting the Console and NetWorker Server Databases

Lesson: Recovering the NetWorker Server and NMC

Lab: Backup and Recovery of NMC and NetWorker Databases
