PRINCE2 Agile® Foundation and Practitioner - Including Exams

Duration: 5 Days   Course Code: P2AFP

Overview:

This five-day course is a combination of the PRINCE2 Agile Foundation and PRINCE2 Agile® Practitioner courses and provides both exams. It provides delegates with a thorough understanding of the PRINCE2 Agile® methodology. During the course we introduce the PRINCE2® methodology and concepts of common agile ways of working, discuss how to blend PRINCE2® with Agile, the purpose and context for blending PRINCE2® and the agile way of working, evaluate the focus areas to a project in an agile context, fix and flex the six aspects of a project in an agile context and be able to apply or tailor the PRINCE2® for a project in an agile context.

All relevant course materials are provided, including the official publication *PRINCE2 Agile*® and both web proctored exam vouchers.

Target Audience:

This course is aimed at candidates who are new to PRINCE2® and are working in or around an agile project environment. The course covers an overview of PRINCE2®, an introduction to agile, and how to apply the two together.

PRINCE2 Agile® has been developed for anyone who delivers projects, large or small, in an agile context. It is a valuable training and certification scheme for anyone working within an agile project environment, whether they be a project manager, project support or part of the wider project team.

PRINCE2 Agile® equips practitioners and organizations with the ability to deliver agile projects by tailoring the PRINCE2® project management method with a broad toolset of agile delivery techniques and frameworks. In this way, practitioners will leverage the benefits of agile ways of working such as iterative and incremental delivery while maintaining a structure of project governance.

Objectives:

- **After you complete this course you will be able to:**

- Prepare for the PRINCE2 Agile® Foundation Exam

- Prepare for the PRINCE2 Agile® Practitioner Exam

- Understand the key aspects of PRINCE2®

- Understand basic concepts behind common agile ways of working

- Demonstrate the purpose of combining PRINCE2® with agile

- Be able to fix and flex the six aspects of a project in an agile context

- Incorporate the areas that can support a PRINCE2 Agile® implementation

- Blend, apply and weave the principles, processes and themes of PRINCE2® with many of the common ways of working in an agile way.

- Configure PRINCE2® when in different situations and to incorporate the agile frameworks, behaviours, concepts and techniques in the best way possible to increase the chances of successful project delivery.

Prerequisites:

There are no formal prerequisites for this course, but learners would benefit from some experience of working in projects prior to attendance.
