

## PRINCE2® Practitioner - Including Exam

Duration: 365 Days    Course Code: P2U    Delivery Method: Elearning (Self-paced)

### Overview:

The PRINCE2® Practitioner is the second of two examinations that you must pass to become a Registered PRINCE2® Practitioner. The exam measures whether you can demonstrate sufficient ability to apply and tailor PRINCE2® to the running and managing of a project. A successful Practitioner candidate should be able to start applying the method to a real project with suitable direction.

The course follows the 2017 syllabus issued by AXELOS, which focuses on the PRINCE2® framework and how this might be applied pragmatically to real projects. PRINCE2® has established itself as the premier approach to managing projects. PRINCE2® is generic –capable of being applied to any kind of project – tailorable and business-driven. Organisations that have adopted the PRINCE2® have claimed that they have been able to achieve greater customer satisfaction during and at the end of projects, to reduce costs and to realise greater benefit from project deliverables.
