

Business Processes in SAP S/4HANA Portfolio and Project Management

Duration: 5 Days **Course Code: S4125** **Delivery Method: Virtual Learning**

Overview:

This course introduces you to the key business processes within the SAP S/4HANA Portfolio and Project Management (PPM) applications. Through instructor lectures and demonstrations balanced with extensive system exercises you will gain a thorough understanding of how SAP S/4HANA Portfolio and Project Management (PPM) can support the management of simple and complex projects within your organization. You will also learn the most important configuration settings and be able to configure SAP Portfolio and Project Management (PPM) in the system afterwards.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Everyone interested to detailed knowledge of the business processes, applications and configuration in SAP S/4HANA Portfolio and Project Management (PPM)
