

Basics of Customizing for Financial Accounting: GL, AP, AR in SAP S/4HANA

Duration: 5 Days Course Code: S4F12 Delivery Method: Company Event

Overview:

Please note that this course is currently in development with a planned availability as of beginning of January 2017.

The course provides an overview of how to implement Financial Accounting capabilities of SAP S/4HANA in order to cover the related business requirements. You will gain the mandatory foundation knowledge required in order to understand and configure business processes for the SAP S/4HANA financials module in the areas of general ledger, accounts payable, and accounts receivable accounting. For the most important business processes, you will practice some configurations and verify the result by using the application.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.
