SAP Overview of Functions in SAP S/4HANA Retail

Duration: 4 Days Course Code: S4IRT Delivery Method: Virtual and Classroom

Overview:

S4IRT provides a high-level overview of the SAP for Retail solution portfolio, and it describes the basic concepts as well as typical retail business processes within SAP S/4HANA Retail for merchandise management. There are many exercises, allowing you to discover the systems features and functions. This course uses the SAP Fiori frontend, and briefly introduces you to the SAP GUI as well.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
