SAP Analytics Cloud: Administration and Connectivity

Duration: 5 Days Course Code: SACA21 Delivery Method: Virtual Learning

Overview:

Please note that with the speed of updates to SAP Analytics Cloud, we endeavor to update this course quarterly. The course material will be delivered in English. This course is a deep-dive course. Please ensure you have taken the SACE11 course (Introduction to SAP Analytics Cloud) or have equivalent foundational knowledge of the overview topics covered in that course.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

- Application Consultant
- Database Administrator
- System Administrator
- System Architect
- Technology Consultant
