

SAFe® Advanced Scrum Master (ASM) – Including Exam

Duration: 2 Days **Course Code: SAFE-ASM** **Delivery Method: Virtual Learning**

Overview:

This two-day course prepares current Scrum Masters for their leadership role in facilitating Agile team, program, and enterprise success in a Scaled Agile Framework (SAFe®) implementation. The course covers facilitation of cross-team interactions in support of program execution and relentless improvement. It enhances the Scrum paradigm with an introduction to scalable engineering and DevOps practices, the application of Kanban to facilitate the flow of value, and supporting interactions with architects, product management, and other critical stakeholders in the larger program and enterprise contexts. The course also offers actionable tools for building high-performing teams and explores practical ways of addressing Agile and Scrum anti-patterns in the enterprise.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Program or Project Manager
Scrum Master
Release Train Engineer
Business Analyst
Agile Coach
SAFe Program Consultant
Consultant
Product Manager
Product Owner
Program Manager

Objectives:

- To perform the role of a SAFe® Advanced Scrum Master attendees should be able to:
 - Support the adoption of engineering practices, DevOps, and Agile architecture
- Apply SAFe principles to facilitation, enablement, and coaching in a multi-team environment
 - Learn to apply Kanban eXtreme Programming (XP) frameworks to optimize flow and improve the team's work
- Build a high-performing team and foster relentless improvement at scale
 - Facilitate program planning, execution, and delivery of end-to-end systems value
- Address Agile and Scrum anti-patterns
 - Support learning through participation in Communities of Practice and innovation cycles

Prerequisites:

All are welcome to attend the course, regardless of experience.

However, having one or more of the following certifications is highly recommended for those who intend to take the SAFe® 5 Advanced Scrum Master (SASM) certification exam:

- SAFe® 5 Scrum Master (SSM) certification
- Certified Scrum Master (CSM) certification
- Professional Scrum Master (PSM) certification

Testing and Certification

Completion of this course gives you access to the exam and all related study materials as part of your Learning Plan in the SAFe Community Platform.

For more information about the exam and benefits of becoming a Certified SAFe professional, click the More Exam Details button.
