

AI Empowered SAFe® Scrum Master (SSM) - Including Exam

Duration: 2 Days Course Code: SAFE-SM Delivery Method: Virtual Learning

Overview:

The AI Empowered SAFe® Scrum Master course offers hands-on learning and certification based on proven Agile principles. It equips learners with job-ready skills and a renewable certification to deepen their Agile expertise.

Over the course of this two-day Certified SAFe® Scrum Master course, you will gain a comprehensive understanding of the Scrum Master role within a SAFe enterprise. You will learn how Scrum Masters empower and lead Agile teams, and how to effectively facilitate key Agile events such as iteration planning, team syncs, and iteration retrospectives. The course also covers how to help teams plan, execute, and deliver value using SAFe Scrum and SAFe Kanban practices.

In addition, you will explore the principles of servant leadership to foster high performing, engaged, and continuously improving teams within your organization. The training incorporates responsible AI frameworks to ensure the protection of sensitive team data while maintaining compliance and ethical standards. You will learn how to leverage AI tools for high-impact activities, including facilitation, retrospectives, coaching conversations, metrics analysis, and stakeholder communication—accelerating agility and effectiveness across your team.

Real-World Exercises: Learners will reinforce course concepts through hands-on, scenario-based exercises completed in small groups.

Activities include applying AI foundations and prompting to enhance facilitation, coaching, and team effectiveness.

**As a SAFe Scrum Master, you will be required to earn a minimum of 24 Continuing Education Units (CEUs) within your two-year certification cycle. This amounts to 12 CEUs annually.*

Updated 04/2026

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

If you have skills in leadership, problem-solving, team dynamics, and guiding others, then you're well-positioned to lead Agile team members and help them thrive and grow. The SAFe Scrum Master training is ideal for:
