

EXIN Agile Scrum Foundation (ASF) Including Exam

Duration: 2 Days **Course Code: SCRUM-F** **Delivery Method: Virtual Learning**

Overview:

EXIN Agile Scrum Foundation is a certification that recognises knowledge of Agile methods combined with knowledge of Scrum practice. Agile Scrum focuses on goal achievement through successful collaboration. Agile methods are popular in software development and are increasingly used in other fields of work. The Scrum way of working involves assembling a multidisciplinary team that organises itself and delivers a working product at the end of a sprint.

This Agile Scrum Foundation training gives you an insight into Agile Scrum in 2 days at Foundation level, combined with the knowledge of scrum practice. Following the Agile Scrum Foundation training, you will have the opportunity to take the EXIN-certified Agile Scrum Foundation exam.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Agile Scrum Foundation is designed to test a professional's fundamental understanding of agile principles and scrum methodology. It is especially useful for those leading or participating in projects. This certification is especially interesting for professionals who work in areas including project management, software development, IT service management and business management.

Testing and Certification

This training course prepares you completely for the EXIN examination Agile Scrum Foundation (ASF).
