

SCRUM Master & Exam

Duration: 2 Days **Course Code: SCRUM-M** **Delivery Method: Company Event**

Overview:

The application of Scrum for software development is increasing rapidly. Many organizations are considering applying or already using Scrum. Scrum is also increasingly used outside of ICT. Many available tools and Scrum training courses focus on the theory of Scrum and only to a lesser extent on the application. This while 'the power of Scrum' lies precisely in its simple picking up and application. This Scrum Master course therefore offers you the opportunity to link theory and practice.

During this two-day Scrum Master training you will learn everything about working as a Scrum Master and / or Scrum team member. In addition to a piece of theory about the basic concepts of Scrum, the training offers various tools and exercises to apply Scrum directly in practice. The training also prepares you for the Scrum Master exam to obtain the Professional Scrum Master certification from Scrum.org (PSM I). This exam is included in the price.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This Scrum training is suitable for Project managers, Team leaders, IT / Development managers, Product managers, Test managers, Business analysts, Architects, Developers and Testers who are interested in applying Scrum to create maximum added value and improved customer and employee satisfaction.

Objectives:

- At the end of the class, you would:
 - Know the way Scrum works.
 - Be familiar with the agile philosophy: method of management, planning, division of roles, and communication.
 - Be able to maintain the agile principles within your organisation.
-

Testing and Certification

To obtain the Professional Scrum Master certification (PSM I), all participants must successfully pass the online certification exam after completing the training. This exam is in English and is included in the price.
