

Service Desk Institute - Manager - Including Exam

Duration: 4 Days Course Code: SDM Delivery Method: Virtual Learning

Overview:

Master the key areas of service desk management, gain the globally recognised Service Desk Manager qualification and lead your team to lasting success.

The Service Desk Manager course provides a thorough understanding of service desk management and leads to a globally recognised professional qualification. This short video explains how this course will ensure you gain the skills needed to steer your service desk to success. **Virtual Course**

This is a fully interactive, instructor-led training experience hosted through SDI's online training portal. Each delegate is provided with all of the resources and workbooks they need plus a collaborative workspace where they can share ideas with fellow delegates.

The live online training is delivered by a specialist SDI trainer who will guide delegates through the easy-to-use virtual training environment making sure every attendee is comfortable with the tools and environment.

This training is delivered by the Service Desk Institute.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This interactive four-day qualification course is designed for existing and aspiring service desk managers and supervisors who wish to develop their understanding of service desk management best practice and how to run an effective support operation.

This course is suitable for those with at least three years experience in a service desk environment.

Objectives:

- At the end of this course, delegates will gain:
 - An internationally recognised SDM qualification from Peoplecert.
- A thorough grounding in the skills required to lead, motivate and manage a service desk team.
