

ViPR SRM Advanced Reporting

Duration: 5 Days **Course Code: SRMREP** **Delivery Method: Virtual Learning**

Overview:

This course provides training for modifying reports and creating standard and enhanced reports within the EMC ViPR SRM solution. After completing this course, you will understand ViPR SRM's reporting capabilities and architecture. You will also be able to modify existing reports or create unique reports to meet the expectations of your business strategy and organizational requirements.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is intended for ViPR SRM Report administrators.

Objectives:

- **Upon successful completion of this course, participants should be able to:**
 - Describe the ViPR SRM report structure design and data manipulation.
