

Oracle R12 Financials Awareness Seminar

Duration: 1 Day **Course Code: FASR12** **Delivery Method: Company Event**

Overview:

This Oracle R12 Financials Awareness Seminar provides a high level overview of the functionality of the main modules within the Oracle Financials suite and their integration. It focuses on the key business cycles common to most organizations and how Oracle Financials supports them. Whilst this is a seminar as opposed to a hands-on training course, it provides an excellent forum for a wider discussion about implementing or working with Oracle Financials R12.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

The Oracle R12 Financials Awareness Seminar is for anyone who wishes to gain an understanding of the functionality of the main modules within the Oracle Financials suite. It would benefit individuals who are not from a finance background but who need to work with Oracle Financials or provide first line support to its users. It would also suit delegates who have worked with other high-end financial software packages and now need to work with Oracle Financials.

Objectives:

- By the end of the Oracle R12 Financials Awareness Seminar, delegates will have gained an understanding of the capabilities of the main Oracle Financials modules and how they integrate with each other. Delegates will also gain an understanding of the main set up and implementation issues involved in a new installation. They will also understand the usage of workflow and alerts. It is intended that this seminar will provide a forum for discussion on the possible implementation issues.
-

Follow-on-Courses:

- Oracle R12 General Ledger (FGLR12)
 - Oracle R12 Accounts Receivable (FARR12)
 - Oracle R12 Accounts Payable (FAPR12)
-

Content:
