

Oracle R12 Install,Patch & Maintain Oracle E-Business Suite Applications

Duration: 5 Days Course Code: FIPMR12 Delivery Method: Company Event

Overview:

This Oracle R12 Install,Patch & Maintain Oracle E-Business Suite Applications course gives delegates practical experience of installing and maintaining an Oracle Applications Release 12 system. Both Standard and Express installation are covered. The standard tools and utilities used for maintenance of an Oracle Applications Release 12 system will be examined and patches will be applied to an Applications system.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This course is designed for Oracle Database Administrators,technical consultants and functional implementers.

Objectives:

- By the end of this Oracle R12 Install,Patch and Maintain course,delegates will be able to Install Oracle Applications Release 12,apply patches to the Oracle E-Business Suite and run the standard Oracle Applications maintenance utilities. They will have gained an understanding of and be able to use AutoConfig utility and the License Manager. Delegates will also have gained an understanding of Oracle Applications key features and architecture. They will gain an understanding of how an Oracle Applications system can be cloned.
 - Some exposure to SQL would be beneficial
-

Prerequisites:

This Oracle R12 Install,Patch and Maintain course is run in a Linux environment and therefore a working knowledge of the Linux/UNIX operating system is required to attend this course.

Some experience of working with relational database management systems and a basic knowledge of database administration tasks are also required. Some knowledge of SQL would be advantageous.

Follow-on-Courses:

- Oracle R12 System Administration
- Oracle Database 11g Release 2 DBA - Part II
- Oracle Database 11g Release 2 DBA - Part I

NOTE: Course technical content is subject to change without notice.

Content:

Oracle R12 Install, Patch ; Maintain Oracle E-Business Suite Applications Training Course

Course Contents - DAY 1

Course Introduction

- Administration and Course Materials
- Course Structure and Agenda
- Delegate and Trainer Introductions

Session 1: OVERVIEW OF THE ORACLE E-BUSINESS SUITE

- Oracle E-Business Suite Home Page
- Oracle E-Business Suite Architecture
- Oracle E-Business Suite Technology Stack
- Oracle E-Business Suite Product Overview
- Product Dependencies
- Vision Demo Database

Session 2: PREPARE FOR AN INSTALLATION

- Installation Tools
- Overview of Rapid Install
- Release 12 Platform Support
- System Prerequisites
- Create Operating System Accounts
- Download the software and Setup a Stage Area
- Setup an Installation Environment
- Set Configuration Parameters

Session 3: INSTALL THE ORACLE E-BUSINESS SUITE

- Start Rapid Install
- Rapid Install Log Files
- Overview of Basic Installation Procedure
- Standard Installation
- Express Installation
- Perform an Installation Oracle R12 Install, Patch ; Maintain Oracle E-Business Suite Applications Training Course

Course Contents - DAY 2

Session 4: POST INSTALLATION STEPS

- Log into Oracle Applications
- Add Environment Parameters to .profile Files
- Change the Default Passwords
- Configure the Database Initialization Parameters
- Security Issues
- Configure Client Software
- Conditional Post Installation Steps
- Backup Oracle Applications

Session 7: THE ORACLE E-BUSINESS SUITE FILE SYSTEM

- An Overview of the E-Business Suite File System
- The INST_TOP Directory Structure
- The Database Tier File System
- The Application Tier File System
- The APPL_TOP Directory Structure
- The Product Directories
- The Technology Stack Directory
- Common Components Directory Oracle R12 Install, Patch ; Maintain Oracle E-Business Suite Applications Training Course

Course Contents - DAY 3

Session 8: THE E-BUSINESS SUITE DATABASE

- Overview of the Database
- The E-Business Suite Database Objects
- Database Schemas and Oracle Applications Product Schemas
- Database Features Overview
- Performance Features
- Scalability Features
- Business Intelligence Overview
- Server Control Scripts for the Database Tier

Session 9: ADVANCED CONFIGURATION OPTIONS

- Shared Application Tier Load Balancing
- Load Balancing
- Networking Features

Session 10: ORACLE APPLICATIONS AD UTILITIES

- Overview of the Oracle Applications AD Utilities
- Run the AD Utilities
- AD Command Line Arguments
- Use Parallel Processing
- AD Log Files
- Maintenance Mode
- Restricted Mode

Session 11: AD ADMINISTRATION

- The AD Administration Interface
- Generate Applications Files Tasks
- Maintain Applications Files Tasks
- Maintain Database Entities Tasks
- Compile/Reload Database Entities Tasks
- Maintain Database Entities Tasks
- Non-Interactive Operation and Maintenance Mode

Session 15: REPORTING UTILITIES

- Overview of the Reporting Utilities
- AD Configuration
- AD File Identification
- AD Job Timing Report

Session 16: CONFIGURATION UTILITIES

- Introduction to Configuration Utilities
- AD Splicer
- File Character Set Converter

Session 17: PATCH THE E-BUSINESS SUITE

- The Patching and AutoPatch Process
- Patch Types and Terminology
- Patch Components
- Download and Unbundle Patches from My Oracle Support
- AutoPatch Operation and Features
- Apply a Patch
- Place the Instance in Maintenance Mode
- Minimise Patch Downtime
- The Patch Wizard Oracle R12 Install, Patch ; Maintain Oracle E-Business Suite Applications Training Course

Course Contents - DAY 5

Session 18: RUN AUTOPATCH

- The AutoPatch Setup
- AutoPatch Usage and Prompts
- Patch File Name and Location
- AutoPatch Messages
- Patch History
- The Timing Report
- Patch Log Files
- Patch Completion Tasks

Session 19: OAM TIMING REPORTS

- Overview of the OAM Timing Reports
- The Timing Reports Main Page
- AutoPatch Timing Details
- Track a Patch Session
- AD Administration Timing Details
- The Job Timing Report
- The Phase Information Report
- The Exceptions Report

Session 20: OTHER AUTOPATCH TOPICS

- Use AD Control to Resolve AutoPatch Worker Failure
- Applications Patching Cleanup
- Merge Patches with AD Merge Patch
- Java Release Infrastructure and Java File Patching

Session 5: COMPONENTS OF THE ORACLE E-BUSINESS SUITE

- The Oracle E-Business Suite Technology Stack
- The Oracle Applications DBA
- Oracle Common Modules
- The Oracle E-Business Suite Utilities
- Oracle Application Object Library
- Oracle Workflow
- Database Tier
- Application Tier
- Desktop Tier
- The Oracle E-Business Suite Technology Layer

Session 6: ENVIRONMENT FILES, CONTROL SCRIPTS AND LANGUAGES

- The Oracle E-Business Suite Environment Files
- The Application Tier Control Scripts
- Character Sets
- Globalization
- National Language Support (NLS)

Session 12: SPECIAL UTILITIES

- The AD Controller
- View Worker Status and Resolve a Failed Worker
- Terminate a Hanging Worker Process
- Restart a Terminated Worker
- Run AD Relink

Session 13: THE AUTOCONFIG UTILITY

- Overview of AutoConfig
- Run AutoConfig
- Context Files
- AutoConfig Tasks
- AutoConfig Operation
- AutoConfig Template and Driver Files
- The AutoConfig Search Utility
- Execute AutoConfig
- AutoConfig Log Files
- Roll Back an AutoConfig Session
- Restore the previous Configuration
- Run AutoConfig In Test Mode
- Edit Parameters

Session 14: LICENSE MANAGER

- Access License Manager
- Register Products
- Register the E-Business Suite
- Register Component Applications
- Register Individual Products
- Register Country-Specific Functionalities
- Register Languages
- License Manager Reports Oracle R12
Install, Patch ; Maintain Oracle
E-Business Suite Applications Training
Course

Course Contents - DAY 4

Session 21: INFORMATION ABOUT APPLIED PATCHES

- Applied Patch Information
- Simple and Advanced Searches
- Applied Patches Reporting

Session 22: OVERVIEW OF CLONING ORACLE APPLICATIONS

- Overview of Cloning Oracle Applications
- Cloning Terminology
- Prerequisite Steps
- Cloning Phases
- Prepare the Source System
- Copy the Source System Files to the Target System
- Configure the Target System
- Completion Tasks
- Post Cloning Tasks
- Cloning Best Practices
