Oracle R12 Reporting (FSG & Report Manager)

Duration: 1 Day   Course Code: FRR12   Delivery Method: Company Event

Overview:

After completing this Oracle R12 Reporting (FSG & Report Manager) course delegates will be able to create and submit both standard and customized reports using data within the General Ledger module. The focus is on working with the capabilities of the Financial Statement Generator within Oracle R12 General Ledger to build a suite of reports from a set of pre-defined report components. The Report Manager section of the course shows how to publish and analyse these reports and apply security where required.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This Oracle R12 Reporting (FSG & Report Manager) course is designed for end users and managers working in Finance departments,financial professionals and technical support staff. A working knowledge of Oracle General Ledger is required.

Objectives:

- By the end of this Oracle R12 Reporting course,delegates will be able to build a financial report using both the mandatory and optional report components provided by the Financial Statement Generator. They will practice running and modifying such reports. They will use Report Manager as a publishing and analysis tool where a higher standard of presentation is required together with the capability to drill down to individual sub-ledger transactions.

Prerequisites:

A working knowledge of Oracle General Ledger is required.

Follow-on-Courses:
- Oracle R12 General Ledger Setup & Management (FGLSMR12)
