

## IBM Knowledge Catalog on IBM Cloud Pak for Data 4.8: Enterprise Catalog Management and Data Governance

**Duration: 1 Day    Course Code: 6XL934G    Delivery Method: Virtual Learning**

### Overview:

This course provides Solution Architects an introduction to the basics of IBM Knowledge Catalog for IBM Cloud Pak for Data. You learn to access IBM Knowledge Catalog through the service, and gain skills in creating catalogs, populating them with assets, and then managing the assets in the catalog through a governance framework.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

### Target Audience:

This course is designed for solution architects, but it is also relevant for other enterprise roles that want to understand and apply data governance, quality, workflow, and catalog concepts in IBM Knowledge Catalog.

### Objectives:

- After completing this course, you should be able to:
- Summarize the foundational concepts of IBM Knowledge Catalog
- Create a governance framework that protects data
- Describe data by adding classifications and business terms
- Curate the data by metadata enrichment and quality assessment
- Evaluate the contents of a data set
- Use governed data assets in projects
- Establish reporting to query metadata from IBM Knowledge Catalog

### Prerequisites:

Before taking this course, you should be able to complete the following tasks:

- Explain the purpose of Cloud Pak for Data and the value it brings to the business
- Describe the architecture of Cloud Pak for Data
- Summarize the ModelOps process
- Differentiate between Cloud Pak for Data and Red Hat OpenShift Container Platform
- Define the AI Ladder and its associated roles and services
- Log in to Cloud Pak for Data and complete an analytics project
