SAP SuccessFactors Platform Introduction Academy

Duration: 5 Days Course Code: THR80 Delivery Method: Virtual Learning

Overview:

This course provides implementation consultants, implementation partners, and support representatives an overview of the basic configurations of SAP SuccessFactors HXM Cloud Suite Platform features. This 5-day course is taught through a combination of self-guided learning, check-in meetings, and hands-on exercises.
This course covers configuration topics and tools that may not be accessible by the customer. Though the course is designed for consultants, customers are welcome to take the course if a deeper understanding of system configuration is desired. Customers should reference the customer training catalog for customer-specific offerings. If you are a customer administrator, please explore the customer catalog and get accredited via the SFX Accreditation program.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Application Consultant

Objectives:

- You will be able to perform configurations of common elements, populate user data, and describe the basics of the SAP SuccessFactors HXM Cloud Suite.

Testing and Certification

Completion of this academy course does not result in certification. There is no certification for this topic.
