

IBM Tivoli Netcool/Impact 7.1 Administration and Implementation

Duration: 4 Days **Course Code: TN045G** **Delivery Method: Virtual Learning**

Overview:

This course teaches students how to deploy and administer IBM Tivoli Netcool/Impact through practice exercises. This course is designed specifically for anyone who might be technically responsible for the design and implementation of Netcool/Impact, a highly scalable analytics engine that adds event and service enrichment and business impact analysis for event data. You should expect exposure to all fundamental elements of Netcool/Impact with a focus on developing policies within the Netcool/Impact product and exploring the features that enhance the visualization, usability, and integration functions. The visualization enhancements are facilitated by the integration of the IBM Dashboard Application Services Hub, which is part of Jazz™ for Service Management, and Netcool/Impact features such as the UI data provider.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logs.

Target Audience:

This basic course is for: Implementers Architects Specialists Administrators Support personnel

Objectives:

- | | |
|--|--|
| ■ Install and configure Netcool/Impact | ■ Use logs to verify policy function |
| ■ Write policies using Netcool/Impact policy language (IPL) | ■ Use and deploy policies using the wizards |
| ■ Create, update, and edit policies in the Tivoli Integrated Portal Console | ■ Export and restore Netcool/Impact server components |
| ■ Define Netcool/Impact data sources, data items, and services | ■ Create a Jazz for Service Management dashboard using Netcool/Impact data
After you complete this course, you can perform the following tasks: |
| ■ Use logs to verify policy function | ■ Install and configure Netcool/Impact |
| ■ Use and deploy policies using the wizards | ■ Write policies using Netcool/Impact policy language (IPL) |
| ■ Export and restore Netcool/Impact server components | ■ Create, update, and edit policies in the Tivoli Integrated Portal Console |
| ■ Create a Jazz for Service Management dashboard using Netcool/Impact data
After you complete this course, you can perform the following tasks: | ■ Define Netcool/Impact data sources, data items, and services |
| ■ Install and configure Netcool/Impact | ■ Use logs to verify policy function |
| ■ Write policies using Netcool/Impact policy language (IPL) | ■ Use and deploy policies using the wizards |
| ■ Create, update, and edit policies in the Tivoli Integrated Portal Console | ■ Export and restore Netcool/Impact server components |
| ■ Define Netcool/Impact data sources, data items, and services | ■ Create a Jazz for Service Management dashboard using Netcool/Impact data |

Prerequisites:

You should have:

- Basic Linux administration skills

- Netcool/OMNIBus administration skills
- Basic scripting skills
