IBM Spectrum Scale Basic Administration for Linux and AIX

Duration: 3 Days Course Code: H005G Delivery Method: Company Event

Overview:

This course is intended for IT professionals tasked with administering an IBM Storage Scale storage cluster in Linux and AIX environments. It includes information on installing, configuring, and monitoring an IBM Storage Scale cluster. Many Storage Scale features are described in lecture materials and then implemented in lab exercises. These features include: Storage management, high availability options, cluster management, and information lifecycle management (ILM) tools.
Note: Although the lab environment is running the Linux operating system, the differences in Storage Scale compared with an AIX environment are minor. Therefore, the skills acquired during the course can be applied in both Linux and AIX environments.
Upon completion of this course, you can request an IBM badge that recognizes your skills and knowledge in this area.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This lecture and exercise-based course is for individuals who want to understand how to install, configure, and manage an IBM Storage Scale cluster.

Objectives:

- After completing this course, you should be able to:
- Summarize the key features of IBM Storage Scale
- Describe IBM ESS and Storage Scale RAID
- Install IBM Storage Scale and configure a cluster
- Manage a cluster
- Implement information lifecycle management (ILM)
- Configure IBM Storage Scale high availability features
- Back up critical cluster data

Prerequisites:

Follow-on-Courses:

- H006G IBM Storage Scale Advanced Administration for Linux
- H008G IBM Storage Scale - Remote Data Access

Content:

Agenda

- Unit 1. IBM Storage Scale Overview
- Unit 2. Installation and Cluster Configuration
- Unit 3. Cluster Management
- Unit 4. Information Lifecycle Management (ILM)
- Unit 5. High Availability and Cluster Data Backups
