Introduction to Microsoft Azure (AZ-900)

Duration: 1 Day Course Code: M-AZ900 Delivery Method: Virtual Learning

Overview:

This course will provide foundational level knowledge on cloud concepts.
This course will provide foundational level knowledge on cloud concepts; core Azure services; and Azure management and governance features and tools.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal and command line interface to create resources and does not require scripting skills. Students in this course will gain confidence to take other role-based courses and certifications, such as Azure Administrator. This course combines lecture, demonstrations, and hands-on labs. This course will also help prepare someone for the AZ-900 exam.

Objectives:

- Students will learn,
- Microsoft Azure Fundamentals: Describe cloud concepts
- Microsoft Azure Fundamentals: Describe Azure architecture and services
- Microsoft Azure Fundamentals: Describe Azure management and governance

Testing and Certification

- Microsoft Certified: Azure Fundamentals

Content:

Module 1: Microsoft Azure Fundamentals: Describe cloud concepts

- Describe cloud computing
- Describe the benefits of using cloud services
- Describe the benefits of using cloud services
