

TOGAF® Training Course: Level 1 And 2 Combined + Exam

Duration: 4 Days **Course Code: TF-TCC** **Version: 9.2**

Overview:

TOGAF® V9.2 is het belangrijkste generieke raamwerk op het gebied van Enterprise Architectuur (EA). Deze cursus geeft richtlijnen hoe je architectuur in de praktijk kan opzetten en hoe het te gebruiken in verband met het plannen van de langere termijn transformatie van de onderneming (strategische architectuur) en het ontwerpen van mogelijkheden om de transformatie te ondersteunen en te ondersteunen. Deze TOGAF® geaccrediteerde training onderzoekt hoe beoefenaars hun activiteiten kunnen baseren op een set van goed gedefinieerde processen. Het behandelt het raamwerk als geheel, met inbegrip van de talrijke technieken om te helpen bij het organiseren, besturen en nu in deze versie het beschrijven van architectuur. Het bevat aanbevelingen over hoe het raamwerk kan worden aangepast en om te gaan met zaken als Security en Service-georiënteerde Architectuur. Deze training bereidt deelnemers voor op het gecombineerde TOGAF® 9.2 Foundation en Certified examen (Level 1 & 2).

TOGAF® V9.2 is the foremost generic framework in the field of Enterprise Architecture (EA). This course provides guidance on what to do to establish an architecture practice and how to use it in connection with planning the longer-term transformation of the enterprise (strategic architecture), and designing capabilities to support and sustain the transformation. This TOGAF® accredited course examines how practitioners can base their activities on a set of well-defined processes. It examines the framework as a whole, including the numerous techniques to assist in organizing, governing and now in this version, describing, architecture. It incorporates recommendations on how to adapt the framework to deal with issues such as Security and Service-oriented Architecture. This training prepares participants to take the combined TOGAF® 9.2 Foundation and Certified exams (Level 1 & 2).

This TOGAF® 9 Training Course: Level 1 And 2 Combined course is being run by Global Knowledge in association with Van Haren Publishing B.V. and is accredited by The Open Group.

Target Audience:

Practicing architects from complex organizations looking for a set of defined processes to help in the organization, governance and management of architecture teams and multiple architecture projects. Experienced architects looking for details on the elements of sound architectural process and practice. Senior managers, such as Project Managers and Service Managers, who wish to gain a full appreciation of architecture practice. Aspiring architects commencing their career wishing to obtain recognized EA certification.

Objectives:

- Understand the basic concepts of enterprise architecture and TOGAF®
 - Explain the features of TOGAF® and its methodology
 - Implement TOGAF® in their work to maximum effect
 - Develop an understanding of the necessary body of knowledge to achieve certification by examination for TOGAF®
-

Prerequisites:

There are no formal prerequisites for this course and certification. It is however advised that delegates have several years of IT experience in a variety of roles and also have an understanding of Enterprise or IT Architecture.

Testing and Certification

The cost for the combined (level 1 and level 2) exam is included in the listprice.

Follow-on-Courses:

Global Knowledge offers a wide range of Personal Effectiveness courses for the architect.

- GCCE100E, Helder leren communiceren
 - IP100E, Beïnvloeden en overtuigen
 - GPS100, Presentatie Vaardigheden
 - MMP100E, Time Management, Prioriteiten leren stellen en managen
-

Content:

Day 1

- Introduction
- TOGAF® Basic / Core Concepts
- Introduction to the ADM
- Enterprise Continuum
- ADM Phases
- ADM Guidelines
- Architecture Governance
- Daily Wrap up / Q;A

Day Two

- Architecture Views, Viewpoints, and Stakeholders
- Building Blocks
- ADM Deliverables
- TOGAF® Reference Models
- Preliminary Phase
- The Architecture Governance Framework
- Architecture Content Framework
- TOGAF® Content Metamodel
- Stakeholder Management
- Architecture Implementation Techniques
- Daily Wrap up / Q;A

Day Three

- Phase A: Architecture
- Business Scenarios Technique
- Phase B: Business Architecture
- Phase C: Information Systems Architectures – Data Architecture
- Phase C: Information Systems Architectures – Application Architecture
- TOGAF® Foundation Architecture: Technical Reference Model
- Integrated Information Infrastructure Reference Model
- Phase D: Technology Architecture
- Daily Wrap up / Q;A

Day Four

- Phase E: Opportunities and Solutions
- Migration Planning Techniques
- Phase F: Migration Planning
- Phase G: Implementation Governance
- Phase H: Architecture Change Management
- ADM Requirements Management
- Architecture Partitioning
- Guidelines for Adapting the ADM: Iteration and Levels
- Guidelines for Adapting the ADM: Security
- Guidelines for Adapting the ADM: SOA
- Architecture Maturity Models
- Architecture Skills Framework
- Daily Wrap up / Q;A

Additional Information:

The cost for the exam is included in the list price.
