

Agile Project Management - Practitioner

Varighed: 3 Days Kursus Kode: AGILEPMP

Beskrivelse:

This course covers how to operate in such an Agile fashion within an overall project framework which is accredited as a stable-mate to PRINCE2 and based on the DSDM Atern approach. Through practical experience of the Agile style of working, case studies and example scenarios from a highly experienced trainer, it provides delegates with an understanding of how the Agile Project Management process can enable planning, management and control for predictable Agile project deliveries.

Målgruppe:

The course is aimed at Project Managers and others involved in Project Management who want to understand how to apply Agile approaches within an overall project management lifecycle framework.

Agenda:

- Understand the fundamentals of Agile Project Management
 - Fully describe and relate the Agile Project Management process
 - Understand the key Agile Project Management practices and how to manage Agile Project teams
 - Understand project control in the Agile environment
-
