

## PRINCE2 Agile® Practitioner

Varighed: 2 Days    Kursus Kode: P2A

### Beskrivelse:

This course covers the qualification from AXELOS which represents an extension to PRINCE2®. The course is equally divided between practical exercises and theory as it examines how to use PRINCE2® in an agile context. The course ends with an exam that allows you to achieve PRINCE2 Agile® Practitioner status.

### Agenda:

- The course explains to delegates how to tailor PRINCE2® to work in the best way possible in an agile context.
- It looks at how to blend and weave the principles, processes and themes of PRINCE2® with many of the common ways of working in an agile way.
- It examines how to configure PRINCE2® when in different situations and how to incorporate the agile frameworks, behaviours, concepts and techniques in the best way possible to increase the chances of successful project delivery.

### Forudsætninger:

- Candidates can sit PRINCE2 Agile Practitioner if they hold any of the following project management certifications: PRINCE2 Foundation, PRINCE2 Agile Foundation, Project Management Professional (PMP)\*, Certified Associate in Project Management (CAPM)\* and IMPA Levels A,B, C and D (Certified Project Director).
- There is very little time spent on recapping PRINCE2® and therefore out of date knowledge or gaps in understanding of PRINCE2® will put the delegate at a disadvantage as PRINCE2 Agile® builds on the candidates existing PRINCE2® knowledge.

### Test og certificering

- The PRINCE2 Agile® Practitioner exam is a 2½ hour, open book, objective testing style exam. The exam is taken during the afternoon of the third day and you are permitted to use your PRINCE2 Agile® Manual during the exam. The exam is structured using 5 questions with a total of 50 marks.

### Indhold:
